TESTIMONIALS

"Working with Lydia on my short film 'Summits' was an incredible experience. She was easy to work with and communicate with in making the film a reality. I definitely plan to keep her in mind for future films."

Jacob Minor, Director & Producer

"I have worked with Lydia on various occasions when she scored several of my wildlife films, and every time was a fantastic experience: not only is she a very skilled composer but also a dedicated team-worker, who was always keen to take my thoughts into account and showed great flexibility and commitment to achieve the best final product. I would thoroughly recommend Lydia to any wildlife filmmaker looking for a talented composer, and I look forward to collaborating with her again!"

Miguel Anton, Wildlife Filmmaker

"Great to have Lydia write some original music for our project. Followed the brief to a tee with beautifully composed pieces and a quick turnaround."

Richard A. Dunford, Producer
